Boot Size:	3/4	3/4	5/6	7/8	7/8	7/8	8/9	8/9

Our suits are designed to be worn with extra air inside the suit for extra warmth. Please order accordingly. Often a customer will be more comfortable in the next size up instead of wearing a suit that is a little too snug.

It is very rare for us to recommend a woman's cut because the hips and breast are built into the suit - unless the woman fits that cut EXACTLY, the drysuit can be very uncomfortable. From our 3 decades worth of experience we have found that MOST women are more comfortable in a Men's drysuit pattern because their hips and breasts will "fit" better without discomfort.

It should also be noted that a higher percentage of women would be more comfortable in a custom suit.
